Model  
Solutions

**Summer Exam-2014**

# **MODEL SOLUTIONS**

## **INTRODUCTION**

The Model Solutions are provided to students for clear understanding of relevant subject and it helps them to prepare for their examinations in organized way.

These Model Solutions are prepared only for the guidance of students that how they should attempt the questions. The solutions are not meant for assessment criteria in the same pattern mentioned in the Model Solution. The purpose of Model Solution is only to guide the students in their future studies for appearing in examination.

The students should use these Model Solutions as a study aid. These have been prepared by the professionals on the basis of the International Standards and laws applicable at the relevant time. These solutions will not be updated with changes in laws or Standards, subsequently. The laws, standards and syllabus of the relevant time would be applicable. PIPFA is not supposed to respond to individual queries from students or any other person regarding the Model Solutions.

## **DISCLAIMER**

The Model Solutions have been developed by the professionals, based on standards, laws, rules, regulations, theories and practices as applicable on the date of that particular examination. No subsequent change will be applicable on the past papers solutions.

Further, PIPFA is not liable in any way for an answer being solved in some other way or otherwise of the Model Solution nor would it carry out any correspondence in this regard.

PIPFA does not take responsibility for any deviation of views, opinion or solution suggested by any other person or faculty or stake holders. PIPFA assumes no responsibility for the errors or omissions in the suggested answers. Errors or omissions, if noticed, should be brought to the notice of the Executive Director for information.

If you are not the intended recipient, you are hereby notified that any dissemination, copying, distributing, commenting or printing of these solutions is strictly prohibited.

# Summer Exam-2014

Corporate Sector

## Financial Accounting

<b>Ans. 3.</b>	<b>(a)</b>	<b>i) Property, plant and equipment</b>	
		Property, plant and equipment are tangible items that: (a) are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and (b) are expected to be used during more than one period.	1.5 1.5
	<b>(b)</b>	<b>ii) Impairment loss</b>	
		An impairment loss is the amount by which the carrying amount of an asset exceeds its recoverable amount.	2
		A complete set of <b>Financial Statements</b> comprises:	
		a- a statement of financial position as at the end of the period;	0.5
		b- a statement of profit or loss and other comprehensive income for the period;	1
		c- a statement of changes in equity for the period;	0.5
	<b>(c)</b>	d- a statement of cash flows for the period;	0.5
		e notes, comprising a summary of significant accounting policies and other explanatory information; comparative information in respect of the preceding period; and	0.5 1
		f- a statement of financial position as at the beginning of the preceding period when an entity applies an accounting policy retrospectively or makes a retrospective restatement of items in its financial statements, or when it reclassifies items in its financial statements.	1
		<b>A contingent liability is:</b>	
		a- a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or	2
b- a present obligation that arises from past events but is not recognised because: (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (ii) the amount of the obligation cannot be measured with sufficient reliability.	3		
	<b>A contingent asset</b> is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.	2

# Summer Exam-2014

Corporate Sector

## Financial Accounting

Ans. 4.

### Ahmed's Trading Account For the period from 1st January 2013 to 21 March 2013

	Rs. (000)	
Sales (2035+6710-880)	7,865	3
Cash sales	935	1
	8,800	
Cost of goods sold		
Opening stock	2,585	
Add: Purchases(1540+7590-1265)	7,865	3
	10,450	
Less: Closing stock (balancing figure)	3,850	2
	6,600	1
Gross profit (25% of sales)	2,200	3
Closing stock lost in fire (3,850,000 - 660,000)	3,190	2

Alternatively T accounts can be prepared in working for calculation of sales and purchases figures  
For the information of mark-up of 33.33% on cost of goods sold, it is not possible to solve the  
problem, therefore margin %age will be determined.

<b>Ans. 5.</b>	According to IAS2, inventory is to be measured at lower of Cost and Net Realisable Value.	
	The cost of the remaining items are	3 x100 = Rs. 300
	NRV	3 x60 = Rs. 180
	As NRV is lower than cost so machines are to be valued at Rs. 180

Accountants

**Ans. 6.**

2 mark for each ratio and 1 for each comment.

**a) Earning per share =  $70,000 / 100,000 = 0.7$**

**Comment**

**EPS:**

It's a performance ratio showing how much earning is available to ordinary shareholder as per their holding. Increase in EPS is a positive sign for the company.

**b) Dividend cover =  $70,000 / 40,000 = 1.75$**

**Comment**

**Dividend Cover:**

It shows how much profit is available for the payment of dividend. A good dividend cover enhances the confidence of the investors

**c) P/E Ratio =  $8 / 7 = 11.43$**

**Comment**

**P/E Ratio:**

It shows growth in share price as compared to earnings. High P/E Ratio indicates the confidence of investors.

**d) Dividend yield =  $(40,000 / 100,000) / 8 = 5\%$**

**Comment**

**Dividend Yield:**

It shows how much return an investor is able to earn in terms of dividend

**e) Interest cover =  $250 / 25 = 10$  times**

**Comment**

**Interest Cover:**

It indicates company's ability to pay interest out of operating profit. High interest cover satisfies the lenders.

**Summer Exam-2014**

**Corporate Sector**

**Financial Accounting**

<b>Ans. 8.</b>	<b>Project A</b>	<b>6</b>
	<p>This project meets the criteria in IAS 38 for development expenditure to be recognized as an asset. These are as follows.</p> <ul style="list-style-type: none"> <li><b>a</b> The product or process is clearly defined and the costs attributable to the product or process can be separately identified and measured reliably.</li> <li><b>b</b> The technical feasibility of the product or process can be demonstrated.</li> <li><b>c</b> The entity intends to produce and market, or, use the product or process and has the ability to do so.</li> <li><b>d</b> The existence of a market for the product or process or, if it is to be used internally rather than sold, its usefulness to the enterprise, can be demonstrated.</li> <li><b>e</b> Adequate resources exist, or their availability can be demonstrated, to complete the project and market or use the product or process.</li> </ul> <p>Development cost is to be capitalized because it meets the criteria under IAS 38 and the company is also going concern. It's to be shown as intangible non-current asset and to be amortized &amp; matched against the income they are expected to generate.</p>	
	<b>Project B</b>	<b>4</b>
	<p>Whilst this project meets most of the criteria discussed above which would enable the costs to be carried forward it fails on the requirements that 'adequate resources exist, or their availability can be demonstrated, to complete the project'. Hence it would be prudent to write off these costs. Once funding is obtained the situation can be reassessed and these and future costs may be capitalized.</p>	
	<b>Project C</b>	<b>3</b>
	<p>This is a research project according to IAS 38, ie original and planned investigation undertaken with the prospects of gaining new scientific or technical knowledge or understanding. There is no certainty as to its ultimate success or commercial viability and therefore it cannot be considered to be a development project. IAS 38 therefore requires that costs be written off as incurred.</p>

# **Performance Measurement**

**(Intermediate Level)**

**Summer Exam-2014**  
Corporate Sector  
**Performance Measurement**

**Ans. No. 1.**

	Entire Company	Frame Division	Works Division	Marks Allocation
Sales (Note 1)	Rs.1,162,500	Rs 742,500	Rs 825,000	
Variable costs (Note 2)	Rs.651,000	Rs 396,000	660,000	
Contribution margin (sales – variable costs)	Rs. 511,500	Rs 346,500	Rs 165,000	3 (1 marks for each)
Fixed costs	Rs.384,000	280,000	Rs 104,000	3 (1 marks for each)
Operating profit (CM – Fixed costs)	Rs.127,500	Rs 66,500	Rs 61,000	3 (1 marks for each)

Note 1:

Frame Division Sales= 5,500 units x Rs 135 = Rs 742,500 (0.5)

Works Division Sales= 3,000 units x Rs275= Rs 825,000 (0.5)

Entire Company Sales= Rs 825,000 + [Rs 135 x(5,500 – 3,000)] = Rs 1,162,500. (1)

Note 2:

Frame Division Variable Costs= 5,500 units x Rs 72 = Rs 396,000. (0.5)

Works Division Variable Costs = 3,000 units x (Rs 135+Rs 85)= Rs 660,000. (0.5)

Entire Company Variable Costs = (5,500 units x Rs 72) + (3,000 units x Rs 85) = Rs 651,000. (1)

Corporate Sector  
**Performance Measurement**

**Ans. No. 4 a**

The Theory of Constraints is a methodology for identifying the most important limiting factor (i.e. constraint) that stands in the way of achieving a goal and then systematically improving that constraint until it is no longer the limiting factor. In manufacturing, the constraint is often referred to as a bottleneck. **(3)**

The Theory of Constraints takes a scientific approach to improvement. It hypothesizes that every complex system, including manufacturing processes, consists of multiple linked activities, one of which acts as a constraint upon the entire system. Focusing on the bottleneck and planning production accordingly improves the overall profitability of the company. **(2)**

**Ans. No. 4 b**

**Summer Exam-2014**  
Corporate Sector  
**Performance Measurement**

**Ans. No. 6.a**

A **standard**, as the term is usually used in management accounting, is a budgeted amount for a single unit of output. A standard cost is the pre-determined cost of manufacturing a single unit or a number of product units during a specific period in the immediate future. A **standard cost** for one unit of output is the budgeted production cost for that unit. Standard costs are calculated using engineering estimates of standard quantities of inputs, and budgeted prices of those inputs. **(3)**

The major advantages of standard costing are;

**(1 each for any 3 of the list)**

- Can be used as performance measurement yardstick;
- Can be used to develop budget;
- Can be used to cost product/services for bidding;
- Effective controlling tool

# **Bus. Comm. & Beh. Studies**

**(Intermediate Level)**

**Summer Exam-2014**  
**Corporate Sector**  
**Bus. Com. & Beh. Studies**

**Ans. 1** Answers will vary but must contain the principles of Precis writing. **15**

**Ans. 2** Communication principles provide guidelines for choice of content and style of presentation, adapted to the purpose and receiver of your message-called the "seven C's," they are completeness, conciseness, consideration, concreteness, clarity, courtesy, and correctness. **08**

**COMPLETENESS** - Business message is complete when it contains all facts the reader or listener needs for the reaction we desire.

**Completeness includes the following:**

**1. Providing All Necessary Information**

- When you initiate a message, check to make sure you have provided all the information the reader needs for thorough, accurate understanding.
- One way to make your message complete is to answer the five W Questions - who, what, when, where, why - and any other essentials.

**2. Answering All Questions Asked**

- Whenever you reply to an inquiry, try to answer all questions-stated and implied.
- If you have no information on a particular question, say so clearly.
- If you have unfavorable information in answer to certain questions, handle your reply with both tact and honesty.

**3. Giving Something Extra, When Desirable**

- Sometimes you must do or give more than answer the customers "Specific questions".

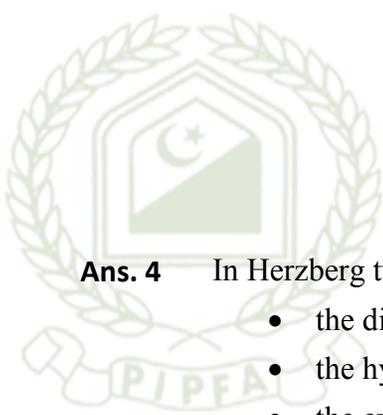

**Benefits of Completeness**

1. Complete messages are more likely to bring the desired results without the expense of additional messages.
2. They can do a better job of building goodwill. Messages that contain information the receiver needs show concern for others.
3. Complete messages can help avert costly lawsuits that may result if important information is missing.
4. Last, communications that seem inconsequential can be surprisingly important if the information they contain is complete and effective.

**Ans. 3** Answers will vary but report must contain the following parts **03**

1. Introduction and Purpose **03**
2. Methods of Investigation **03**
3. Different symptoms of the problem **03**
4. Conclusions **03**
5. Recommendations **03**

**(Total Marks 15)**

**Summer Exam-2014**  
**Corporate Sector**  
**Bus. Com. & Beh. Studies**

**Ans. 4** In Herzberg two-factor theory of motivation, the two factors are called:

**08**

- the dissatisfiers-satisfiers or
- the hygiene-motivators or
- the extrinsic-intrinsic factors

**Dissatisfiers or Hygiene Factors** - the theory concludes that there is a set of extrinsic conditions, the job context, which results in dissatisfaction among employees when the conditions are not present. If these conditions are present, this does not necessarily motivate employees. These conditions are the dissatisfiers or hygiene factors, since they are needed to maintain at least a level of "no dissatisfaction."

They include:

1. Salary
2. Job security
3. Status
4. Working conditions
5. Company procedures
6. Quality of technical supervision
7. Quality of interpersonal relations at work place

**Satisfiers or Motivators** - a set of intrinsic conditions - the job content - when present in the job, builds strong levels of motivation that can result in good job performance. If these conditions are not present, jobs do not prove highly satisfying. The factors in this set are called the satisfiers or motivators and include:

1. Achievement
2. Recognition
3. Responsibility
4. Advancement
5. The work itself
6. The possibility of growth

These motivators are directly related to the nature of the job or task itself. When present, they contribute to satisfaction. This, in turn, can result in intrinsic task motivation.

**Ans. 5** Training needs of employees can be determined by any of the following or with the combination of the following methods.

**05**

1. **Performance Appraisal**  
Employees' work is measured against the performance standards or objectives established for his or her job.
2. **Analysis of Job requirements**  
The skills or knowledge specified in Job Descriptions are examined and those employees who lack in those areas are identified as suitable candidates for the training.

**Summer Exam-2014**  
**Corporate Sector**  
**Bus. Com. & Beh. Studies**

3. **Organizational analysis**

The effectiveness of the organization and its success in meeting its goals are analyzed to determine where differences exist. The differences are identified as improvement needed areas and employees are recommended for training to improve overall effectiveness of the organization.

4. **Employee Survey**

Employees are asked to identify the problems they face in completing tasks and also recommend solutions.

**Ans. 6** To compose effective written or oral messages, you must apply certain communication principles, These principles provide guidelines for choice of content and style of presentation, adapted to the purpose and receiver of your message-called the "seven C's," they are completeness, conciseness, consideration, concreteness, clarity, courtesy, and correctness.

**07**

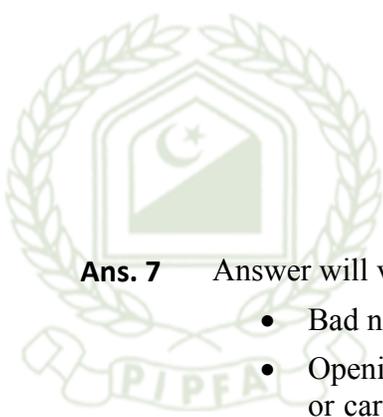

### CONCISENESS

Conciseness is saying what you have to say in the fewest possible words without sacrificing the other C qualities. A concise message is complete without being wordy. Conciseness, include the following:

1. **Eliminating Wordy Expressions.** Use single-word substitutes instead of phrases whenever possible without changing meanings.  
Wordy: At this time      Concise: Now
2. **Omitting unnecessary expressions.**  
Wordy: Please be advised that your admission statement was received.  
Concise: Your admission statement has been received.
3. **Include Only Relevant Material.** The effective, concise message should omit not only unnecessarily wordy expressions but also irrelevant statements.
4. **Avoid Unnecessary Repetition.** Sometimes repetition is necessary for emphasis. But when the same thing is said two or three times without reason, the message becomes wordy and boring.

### Advantages

- A concise message saves time and expense for both sender and receiver. Conciseness contributes to emphasis; by eliminating unnecessary words, you let important ideas stand out.
- When combined with a "you-view", concise messages are inherently more interesting to recipients.
- Finally, concise messages show respect for recipients by not cluttering their professional lives with unnecessary information.

**Summer Exam-2014**  
**Corporate Sector**  
**Bus. Com. & Beh. Studies**

**Ans. 7** Answer will vary but besides logical persuasive content it must contain the following. **10**

- Bad news organizational plan.
- Opening Paragraph must begin with a buffer that refers to the firm's appreciation or careful consideration of the reader's request for credit or to his or her interest in the store, or to both.
- Explanations of retail credit refusals should be given.
- Offer for future sales should be maintained.

**Ans. 8a** Minutes Book is an important and valuable record of a company registered or incorporated bodies. **06**

**Functions** The functions of Minute book include the following:

1. It is a cumulative record of the business transacted in the various meetings.
2. It can be checked by Government Officials and are open for inspection by the shareholders whenever they like to do so.
3. It helps in building up the history of the company.
4. It reflects the performance and achievements of the company.
5. It is used for future planning and programs.
6. It reflects the interest taken and contribution made by the various shareholders or members of the company.
7. It helps in assessing what progress the company has made during specified period.
8. It helps in finding out the soundness of the policies of the Management.
9. It helps in establishing company's financial position.
10. It helps in tracing the problems faced and how they have been solved.

**Ans. 8b** **Statutory Meeting (SIM)** - Every company public limited by shares and every company limited by guarantee and having a share capital shall, within a period of not less than three months, not more than six months, from the date at which the company is entitled to commence business, hold a general meeting of the members of the company, which shall be called Statutory Meeting. **04**

**Annual General Meeting (AGM)** - Every company shall hold its annual general meeting, within eighteen months from the date of its incorporation and thereafter once at least in a year.

**(Total Marks 10)**

**Ans. 9** Organization Development (OD) is the systematic application of behavioral science knowledge at various levels, such as group, inter-group, organization, etc., to bring about planned changes. Its objective is a higher quality of work-life, productivity, adaptability, and effectiveness. It accomplishes this by changing attitudes, behaviors, values, strategies, procedures, and structures so that the organization can adapt to **05**

### Bus. Com. & Beh. Studies

competitive actions, technological advances, and the fast pace of change within the environment.

#### Characteristics:

1. Humanistic Values: Positive beliefs about the potential of employees.
2. Systems Orientation: All parts of the organization, to include structure, technology, and people, must work together.
3. Experiential Learning: The learners' experiences in the training environment should be the kind of human problems they encounter at work. The training should NOT be all theory and lecture.
4. Problem Solving: Problems are identified, data is gathered, corrective action is taken, progress is assessed, and adjustments in the problem solving process are made as needed. This process is known as Action Research.
5. Contingency Orientation: Action are selected and adapted to fit the need.
6. Change Agent: Stimulate, facilitate, and coordinate change.
7. Levels of Interventions: Problems can occur at one or more level in the organization so the strategy will require one or more interventions.

Ans. 10

#### On the Job methods

- Coaching - The training of an employee by his or her immediate boss or supervisor is by far the most effective management development technique.
- Job rotation - It involves shifting managers from position to position so they can broaden their experience and familiarize themselves with various aspects of the firm's operations.
- Training positions - Trainees are third method of developing managers. Trainees are given staff positions immediately under a manager. Such assignments give trainees a chance to work with and model themselves after outstanding managers.
- Planned work activities - It involve giving trainees important work assignments to develop their experience and ability.
- Participation - Trainees may be asked to head taskforce or participate in an important committee meeting. It helps them gain insight into how organizations operate and also improve their human relations skills.

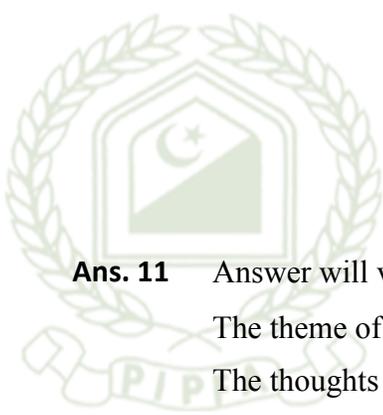

#### Off the Job methods

Employees are sent to different training programs. It enables them to focus on training and development only. It also improves their professional socialization.

<b>Total Marks 09</b>		

## Summer Exam-2014

Institute of Public  
Accountants  
Corporate Sector  
Auditing  
Finance

<b>Ans. 3</b>	<p><b>(a) PERFORMANCE MATERIALITY:</b> Performance materiality means the amount or amounts set by the auditor at less than materiality for the financial statements as a whole to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality for the financial statements as a whole. If applicable, performance materiality also refers to the amount or amounts set by the auditor at less than the materiality level or levels for particular classes of transactions, accounts balances or disclosures.</p> <p><b>(b) QUALITATIVE MATERIALITY:</b> Other than financial numbers, information in the financial statement may also be relevant and significant based on its nature. Such information is likely to be given importance by the reader of the financial statements irrespective of the monetary amount associated with it. For example, information in the financial statements about remuneration of the Chief Executive Officer and other Directors would be considered material based on qualitative characteristics. Similarly significant transactions with related parties would also be considered material.</p> <p><b>(c) ADVOCACY THREAT:</b> Advocacy threats arise in those situations where the audit firm promotes a position or opinion to the point that subsequently objectivity is compromised. Examples would include commenting publicly on future events in particular circumstances, having made assertions without detailing the assumptions, or acting as an advocate on behalf of audit clients in litigation or disputes with third parties. Advocacy threats also arise if the firm promotes shares in a listed audit client.</p> <p><b>(d) LOWBALLING:</b> When an auditor quotes a significantly lower fee for an audit service that charged by the predecessor firm, there is a significant self-interest threat to independence of the auditor. This is because in the future, the auditor may compromise on objectivity in order not to displease the client so as to continue the client relationship which had started with a possibly loss-making fee arrangement.</p> <p><b>(e) STATISTICAL SAMPLING:</b> An approach to sampling that has the following characteristics: (i) Random Selection of the sample items; and (ii) The use of probability theory to evaluate sample results, including measurement of sampling risk.</p> <p style="text-align: center;"><b>One (1) mark for a basic definition and an additional one (1) mark for adequate description or example, as applicable</b></p>	<p><b>02</b></p> <p><b>02</b></p> <p><b>02</b></p> <p><b>02</b></p> <p><b>02</b></p>
<b>Total Marks 10</b>		

## Summer Exam-2014

### Corporate Sector Auditing

Institute of Public  
Finance  
Accountants

Ans. 4

- Conduct a cash count at the end of business on the last day or prior to commencement on the first day of the next year and ensure the cash in hand shown by ABC limited matches the physical cash held.
- Obtain documentation from the custodian of cash as audit evidence; obtain last documents of cash receipts and cash payments to ensure cut-off has been applied appropriately.
- If the date of the count is different from the year end date, ensure appropriate work-back procedures are performed.
- Obtain a certificate or statement of cash in hand from the management of the company.
- Obtain standard bank confirmations from each bank with which ABC limited has conducted banking operations and transactions.
- Re-perform an arithmetic check on the bank reconciliation statements.
- Trace cheques shown as outstanding on the bank reconciliation to the cash book prior to the year end and to the subsequent bank statements and obtain explanations from any large or unusual items not cleared at the time of the audit.
- Compare cash book and bank statements in detail for the last month of the year.
- Review other bank reconciliations on a sample basis to ensure regular clearance of outstanding items
- Verify any contra items in the bank statements or cash books maintained by ABC limited.
- Inspect the cash book and bank statements for any large, unusual, one-off or unique transactions and inquire from management about the purpose of the same.
- Inquire from management if any of the savings, current or term deposit accounts are secured against any loan facility availed by ABC Limited, in which case a disclosure of the same may be suggested in the financial statements.
- Determine whether the bank accounts are subject to any restrictions.

**One (1) mark for each procedure appropriately related to ABC limited's disclosure in the financial statement, deduct marks for vague explanations or generic cash and bank audit procedures**

**Total Marks 15**

### Auditing

<b>Ans. 5.</b> <b>(a)</b>	<ul style="list-style-type: none"><li>• All insurance officers in all branches may not be accounted for in the accumulation and calculation of payroll.</li><li>• One insurance officer may be paid twice.</li><li>• An insurance officer may overstate the amount of commission earned by him by misstating premium numbers.</li><li>• Appropriate approvals may not be in place for the working of commission.</li><li>• Timely communication of commission may not be made.</li><li>• HR Department may not ensure the existence of an insurance agent prior to payment of salary.</li><li>• List of employees, days worked and similar information may not be the same with the Finance, HR and Insurance sub-departments.</li><li>• Increments may not be calculated correctly.</li><li>• Deductions of items such as tax and loan deductions, and perks / benefits / privileges may not be appropriately accounted for.</li><li>• Increments may not be applied at the correct rate.</li><li>• Increments may not be applied on time.</li><li>• Double promotion or increment may be accounted.</li><li>• Payment to employees may not correspond to the amount they are entitled / eligible to get.</li><li>• Departmental bonus may be overstated by the insurance agents' incorrect working or collusion within the sub-departments of insurance.</li><li>• Tax workings may not take into account the departmental bonus and commissions, resulting in less deduction of tax from employee salaries.</li><li>• Effect of leavers and joiners may not be accounted for on a timely basis i.e. an employee who has left may still be paid a salary.</li></ul> <p style="text-align: right;"><b>One mark for each valid control risk if properly explained</b></p>	<b>08</b>
<b>Ans. 5.</b> <b>(b)</b>	<ul style="list-style-type: none"><li>• Obtain consolidated salary sheets for a sample from 12 months to ensure the total amount as per salary sheet matches the amount recorded in the general ledger.</li><li>• Perform an analytical review on the salaries expense by preparing a trend analysis of total salary per month; identify if the movements in the trend correspond to the increment, promotions, leavers and joiners.</li><li>• Prepare another monthly trend analysis of commission expense and correlate with insurance premium earned by the company to ensure that any excess commission paid to insurance officers corresponds to increase in insurance premium earned by Connect.</li></ul>	<b>08</b>

## Summer Exam-2014

### Institute of Public Finance Accountants

#### Corporate Sector Auditing

- Select a sample of insurance officers from each branch and ensure their commission calculations are correct by inspecting the insurance premium record and recalculating the commission.
- Obtain a sample from the quarterly departmental bonus calculations and ensure accuracy of calculation.
- Match the information in the departmental bonus calculation with the underlying record of insurance premium.
- On a sample basis, ensure that any insurance premiums shown in the commission and bonus workings were actually realized in cash as well by tracing the premium amounts to Connect's bank statement.
- Select a sample of joiner / new recruits and ensure their payroll was commenced from the date they joined.
- Match a sample of new recruit's payroll with their appointment letters.
- Select a sample of leavers and ensure they were stopped payment of salary from the date of leaving by performing a review of subsequent salary sheets.
- Select a sample of promotions and match the amount paid with the promotion letters issued to and acknowledged by the relevant employees.
- Select a sample of increments and apply recalculation procedures to ensure accurate calculation of increment and tax effect thereon.

**Total Marks 16**

- Ans. 6** Answer should be based around the following points (Difference in candidates' expression to be judged)
- (a)** Manufacturing client - inventory likely to be material, physical verification is an important audit procedure to obtain assurance over the existence and valuation assertions. Quality of evidence is of highest level since it is auditor-derived evidence. Amount being material would result in modification of the audit opinion. Assuming other items such as fixed assets, receivable and liabilities are also of similar or larger amount, a pervasive effect is unlikely, therefore a qualified opinion would suffice.
- (b)** As per IAS-37, definition of provision appears to have been met by the company's act of installation of power plant. Substantial time and effort point towards materiality of the provision. Despite being material, the effect is likely to be confined to a single area of the financial statements and would therefore not be pervasive. Qualified opinion should be expressed.
- (c)** Such as significant amount being unaudited due to inability to obtain sufficient appropriate audit evidence. Further, absence of lawyer, tax and bank

### Corporate Sector Auditing

	<p>confirmations means the impact is not confined to a single area of the financial statements. Qualification would not seem suitable since too many items in the financial are impacted. Disclaimer of opinion should be given.</p> <p><b>(d)</b> Although company formation was 2 year ago and therefore there can be an argument that fixed assets are new, the nature of business is such that technological changes can quickly render the entire plant and machinery obsolete in limited time. The item is likely to be material to the financial statements based on qualitative factors as well. However, the fact that similar companies have carried out the test but no impairment was identified indicates that there may not be a possible adjustment to the financial right now (although such an adjustment could occur in the future). On a conservative note and to avoid any risk, consideration should be given to include an emphasis of matter paragraph in the financial statements, but the opinion should not be qualified.</p> <p><b>(e)</b> Non- disclosure as a going concern can misled to the users of the financial statements. It would therefore be inappropriate on the part of the auditor not to raise this matter in the audit report. The overall impact of the non-disclosure must be considered and if pervasive, an adverse opinion should be expressed. Otherwise, at least a qualified opinion should be given.</p> <p style="text-align: right;"><b>Up to 2 marks for providing a basis and one mark for stating the opinion in response to that basis</b></p>	<p><b>04</b></p> <p><b>04</b></p> <p><b>04</b></p>
	<b>Total Marks 20</b>	
<p><b>Ans. 7</b></p>	<p>‘Expert’ a person or firm possessing special skill, knowledge and experience in a particular field other than accounting or audit.</p> <p>As per ISA 620, an auditor can either make use of the management expert or use his own expert (Known as the ‘auditor expert’). When determining need for an expert, consider i) engagement teams knowledge and previous experience ii) risk of material misstatement based on nature, complexity and materiality of the matter iii) quantity and quality of other audit evidence to be obtained.</p> <p>Auditor should evaluate professional competence, capability and objectivity of the expert. In situations where the auditor finds that the expert possesses adequate amount of competence and objectivity, the auditor can use the expert’s work to reduce the nature, timing and extent of his procedures.</p> <p>For example, if an entity follows the revaluation model Under IAS 16, management may engage a professional valuer as an expert to determine with certain degree of judgment, the value of its land and buildings. The auditor can then either make use of the management expert or utilize the services of his expert to assess whether the value appearing in the balance sheet of the said company seems to be a reasonable approximation of the revalued amount as per IAS 16 criteria.</p>	

## Summer Exam-2014

### Corporate Sector Auditing

	<p>An auditor would usually have to review the significant assumptions used by the expert to challenge those assumptions.</p> <p>To take another example, many companies hire subject matter specialist lawyers to advocate on their behalf in cases of litigation involving complex matters. In such situations too, the auditor with all his financial expertise would not be in a position to decide about the possible outcome of a matter or the 'strength' in a particular case. A lawyer engaged as an expert would therefore be able to provide insights as regards the above.</p> <p>An auditor is also required to evaluate appropriateness of the expert's work in relation to the assertion being addressed and to ensure whether assumptions used by the expert appear to be reasonable.</p> <p>Auditor's report should not refer to the work of an expert.</p> <p style="text-align: right;"><b>Up to 1 mark for each point provided adequately explained</b></p>	
	<b>Total Marks 10</b>	
<b>Ans. 8</b>	<p>The auditor should comply with the ethical requirements relevant to the audit of the annual financial statements of the entity. These ethical requirements govern the auditor's professional responsibilities in the following areas: independence, integrity, objectivity, professional competence and due care, confidentiality and professional behavior.</p> <p>The objective of an engagement to review interim financial information is to enable the auditor to express a conclusion whether, on the basis of the review, anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with an applicable financial reporting framework. The auditor makes inquiries, and performs analytical and other review procedures in order to reduce to a moderate level the risk of expressing an inappropriate conclusion when the interim financial information is materially misstated.</p> <p>The auditor and the client should agree on the terms of the engagement.</p> <p>The auditor should have an understanding of the entity and its environment, including its internal control, as it relates to the preparation of both annual and interim financial information, sufficient to plan and conduct the engagement so as to be able to:</p> <ol style="list-style-type: none"><li>a) Identify the types of potential material misstatement and consider the likelihood of their occurrence; and</li><li>b) Select the inquiries, analytical and other review procedures that will provide the auditor with a basis for reporting whether anything has come to the</li></ol>

### Corporate Sector Auditing

auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework.

The auditor uses the understanding of the entity and its environment, including its internal control, to determine the inquiries to be made and the analytical and other review procedures to be applied and to identify the particular events, transactions or assertions to which inquiries may be directed or analytical or other review procedures applied.

The auditor should make inquiries, primarily of persons responsible for financial and accounting matters, and perform analytical and other review procedures to enable the auditor to conclude whether, on the basis of the procedures performed, anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework.

The auditor ordinarily performs the following procedures:

- Reading the minutes of the meetings of shareholders, those charged with governance, and other appropriate committees to identify matters that may affect the interim financial information, and inquiring about matters dealt with at meetings for which minutes are not available that may affect the interim financial information .
- Considering the effect, if any, of matters giving rise to a modification of the audit or review report, accounting adjustments or unadjusted misstatements, at the time of the previous audit or reviews.
- Communicating, where appropriate, with other auditors who are performing a review of the interim financial information of the reporting entity's significant components.
- Inquiring of members of management responsible for financial and accounting matters, and others as appropriate about the following:
  - Whether the interim financial information has been prepared and presented in accordance with the applicable financial reporting framework.
  - Whether there have been any changes in accounting principles or in the methods of applying them.
  - Whether any new transactions have necessitated the application of a new accounting principle.
  - Whether the interim financial information contains any known uncorrected misstatements.
  - Unusual or complex situations that may have affected the interim financial

### Corporate Sector Auditing

information, such as a business combination or disposal of a segment of the business.

- Significant assumptions that are relevant to the fair value measurement or disclosures and management's intention and ability to carry out specific courses of action on behalf of the entity.
  - Whether related party transactions have been appropriately accounted for and disclosed in the interim financial information.
  - Significant changes in commitments and contractual obligations.
  - Significant changes in contingent liabilities including litigation or claims.
  - Compliance with debt covenants.
  - Matters about which questions have arisen in the course of applying the review procedures.
  - Significant transactions occurring in the last several days of the interim period or the first several days of the next interim period.
  - Knowledge of any fraud or suspected fraud affecting the entity involving:
    - a) Management;
    - b) Employees who have significant roles in internal control; or
    - c) Others where the fraud could have a material effect on the interim financial information.
  - Knowledge of any allegations of fraud, or suspected fraud, affecting the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.
  - Knowledge of any actual or possible noncompliance with laws and regulations that could have a material effect on the interim financial information.
- Applying analytical procedures to the interim financial information designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement in the interim financial information. Analytical procedures may include ratio analysis and statistical techniques such as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques.
  - Reading the interim financial information, and considering whether anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework.
  - The auditor should obtain evidence that the interim financial information agrees or reconciles with the underlying accounting records. The auditor may obtain evidence that the interim financial information agrees or reconciles with the underlying accounting records by tracing the interim financial

## Summer Exam-2014

### Corporate Sector Auditing

information to:

- a) The accounting records, such as the general ledger, or a consolidating schedule that agrees or reconciles with the accounting records; and
- b) Other supporting data in the entity's records as necessary.

The auditor should obtain written representation from management that:

- a) It acknowledges its responsibility for the design and implementation of internal control to prevent and detect fraud and error;
- b) The interim financial information is prepared and presented in accordance with the applicable financial reporting framework;
- c) It believes the effect of those uncorrected misstatements aggregated by the auditor during the review are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole. A summary of such items is included in or attached to the written representations;
- d) It has disclosed to the auditor all significant facts relating to any frauds or suspected frauds known to management that may have affected the entity;
- e) It has disclosed to the auditor the results of its assessment of the risks that the interim financial information may be materially misstated as a result of fraud;
- f) It has disclosed to the auditor all known actual or possible noncompliance with laws and regulations whose effects are to be considered when preparing the interim financial information; and
- g) It has disclosed to the auditor all significant events that have occurred subsequent to the balance sheet date and through to the date of the review report that may require adjustment to or disclosure in the interim financial information.
